### LEAD PAINT CHIP TEST

**\$35 per sample** - Includes elemental analysis, quantification and interpretative report  
**RESULTS IN TWO BUSINESS DAYS** after receipt of samples (call for rush testing)

#### DIRECTIONS - based on EPA guidelines

- Using a ruler, measure and mark a 1 in x 1 in outline of the sample area.
- Score the 1 in x 1 in square area with a cutting tool.
- Use a clean piece of wax paper as a tray to assist in capturing the paint sample within the 1 in x 1 in sample area.  
Tip: on vertical surfaces use tape to hold the wax paper against the surface.
- Using a cutting tool, remove the paint chip sample from the substrate within the 1 in x 1 in sample area.
- Transfer the paint chip and any fragments into a clean zip lock bag. Be careful not to spill sample or create dust.
- Label the sample container or zip lock bag (e.g. #1 - NE bedroom W interior wall).
- Clean tools and sampling area with a disposable wet wipe.
- Fill out the form\* and mail with the sample to Absolute Labs, Inc. *\*A signature is required for analysis.*

Note: Avoid exposing yourself to any more dust than necessary during the collection. Do not remain in the area longer than necessary. The use a NIOSH approved particle respirator and filter (e.g., N95, P100) is recommended. You should clean all tools used as well as the sampling area after each sample collection.
