VERMICULITE INSULATION ASBESTOS TEST

\$80 per sample includes quantitative laboratory analysis and interpretative report
Results in 2 business days upon receipt of sample(s). Call for rush pricing.

DIRECTIONS

1. Collect a minimum of three (3) separate samples from random areas.
2. Collect 1 - 2 cups of insulation for each of the three (3) samples, each in its own bag, taken from the bottom half of the insulation in the attic or from the bottom of the wall cavity (the asbestos tends to settle to the bottom). It is very important to take samples from the bottom half of the insulation; just move the top half aside before sampling.
3. Place the 3 samples in a larger zip lock bag, complete the submission form* and mail to Absolute Labs.
*A signature is required for analysis.

Note: Avoid exposing yourself to any more dust than necessary during the collection and do not remain in the area longer than necessary. The use of a NIOSH approved particle respirator and filter (e.g., N95, P100) is recommended.

REPORTING INFORMATION

Sample description (attic, wall cavity, etc.): _____

Site address or project no.: _____

Sampler's name: _____ Date taken: _____

Phone no.: _____ Notes: _____

Email(s) for results: _____

Relinquished by (signature*): _____ Date: _____ Time: _____

Received by: _____ Date: _____ Time: _____

PAYMENT OPTIONS

1. My check is enclosed (payable to Absolute Labs, Inc.)
2. Charge my: MC VISA AMEX DISC ACCOUNT KEEP MY INFORMATION ON FILE

Name: _____

Credit Card #: _____ Exp. date: _____

Billing Address: _____

City, State, Zip: _____

3. Pay online: <http://www.testittoday.com/product/asbestos/> - Order no.:

4. Cash - in person only

**By signing this form the client agrees to the terms and conditions posted on absolutelabs.net and testittoday.com.*

LAB USE ONLY
